

# Excel 2010 Trust Center Settings for ORC:

(Excel is a TradeMark of Microsoft Corporation)

1.  This screenshot shows the File ribbon in Microsoft Excel 2010. The 'File' tab is highlighted in green at the top. Below it, the ribbon contains options such as Save, Save As, Open, Close, Info, Recent, New, Print, Save & Send, Help, Options, and Exit. Red boxes highlight the 'File' tab and the 'Options' button.

2.  This screenshot shows the Excel Options dialog box. The 'General' tab is selected and highlighted in yellow. A list of categories is shown on the right side, including Formulas, Proofing, Save, Language, Advanced, Customize Ribbon, Quick Access Toolbar, Add-Ins, and Trust Center. The 'Trust Center' option is highlighted with a red box.

3.  This screenshot shows the Microsoft Excel Trust Center dialog box. The 'Trust Center' option is highlighted in yellow in the left-hand list. The main area contains information about protecting privacy and security. A button labeled 'Trust Center Settings...' is highlighted with a red box. The dialog box also includes 'OK' and 'Cancel' buttons at the bottom.

# Excel 2010 Trust Center Settings for ORC:

(Excel is a TradeMark of Microsoft Corporation)

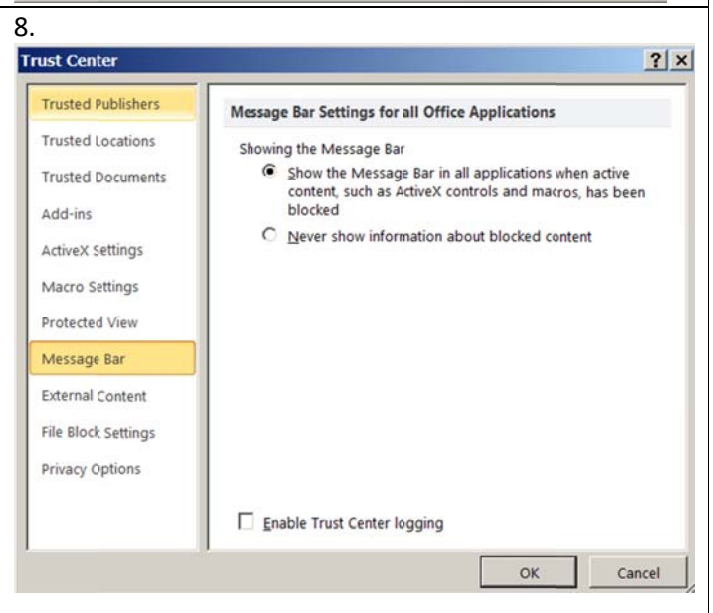

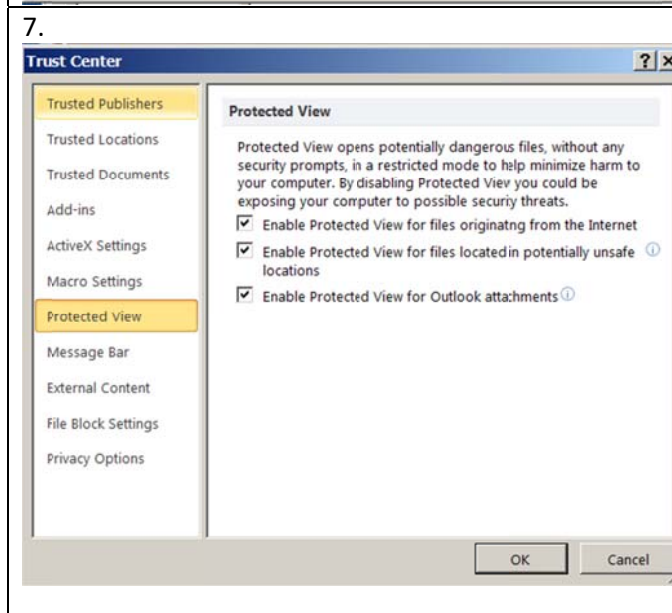

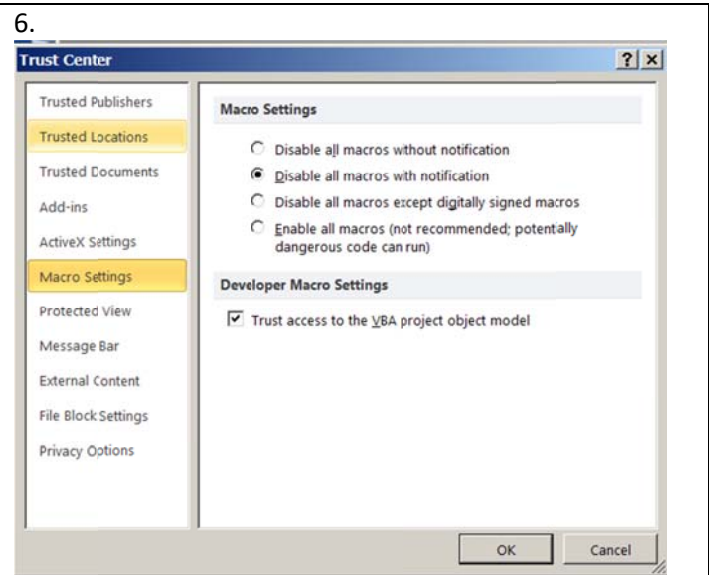

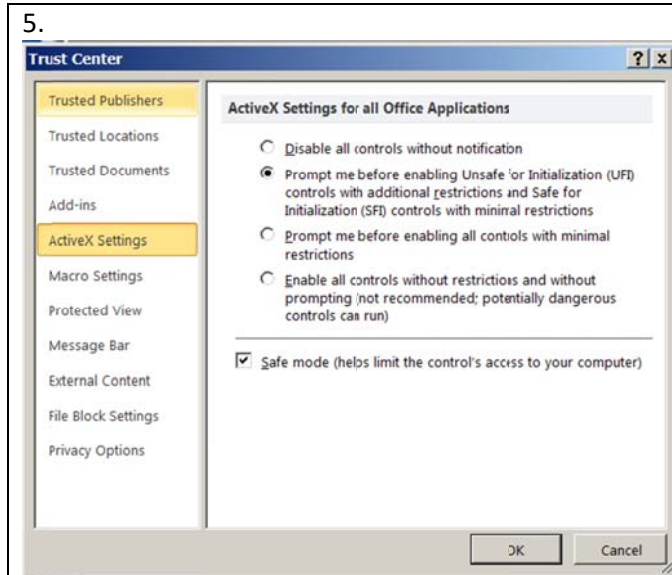

Always add the folder of the version you have, to trusted locations:

The screenshot shows the 'Trust Center' dialog box with the 'Trusted Locations' tab selected. A warning message states: 'Warning: All these locations are treated as trusted sources for opening files. If you change or add a location, make sure that the new location is secure.' Below the warning is a table of trusted locations. The path 'C:\ORC2016Simple\' is circled in red. Below the table, the details for the selected location are shown: Path: C:\JIMdrive\HUB\, Description: (empty), Date Modified: 10/19/2016 9:50 AM, and Sub Folders: Disallowed. At the bottom, there are three buttons: 'Add new location...', 'Remove', and 'Modify...'. There are also two checkboxes: 'Allow Trusted Locations on my network (not recommended)' and 'Disable all Trusted locations'.

| Path  | Description  | Date Modified       |
|---|--|---------------------|
| User Locations                                      |  |                     |

The screenshot displays the 'Excel Options' dialog box with the 'Proofing' tab selected. The left-hand navigation pane includes categories such as General, Formulas, Proofing (highlighted), Save, Language, Advanced, Customize Ribbon, Quick Access Toolbar, Add-Ins, and Trust Center. The main content area is titled 'Change how Excel corrects and formats your text.' and is divided into two sections: 'AutoCorrect options' and 'When correcting spelling in Microsoft Office programs'. Under 'AutoCorrect options', there is a button labeled 'AutoCorrect Options...'. The 'When correcting spelling in Microsoft Office programs' section contains several checkboxes: 'Ignore words in UPPERCASE' (checked), 'Ignore words that contain numbers' (checked), 'Ignore Internet and file addresses' (checked), 'Flag repeated words' (checked), 'Enforce accented uppercase in French' (unchecked), and 'Suggest from main dictionary only' (unchecked). Below these are three dropdown menus: 'Custom Dictionaries...' (button), 'French modes:' (set to 'Traditional and new spellings'), 'Spanish modes:' (set to 'Tuteo verb forms only'), and 'Dictionary language:' (set to 'English (U.S.)').
